## EXPERIENCE

**June 2011 – June 2015**

**Muthayammal College, Tamil Nadu, India.**

Ramya have worked as an Electrical Engineering lecturer for polytechnic students in Muthayammal college. She was taking responsibility as class in charge/responsible for final year students and teaching electrical engineering subject for 2nd and final years students.

As a lecturer & class responsible, to make sure students understands the subject core part and try out the same practically in LAB. Motivated the students to understand the subject through different ways like taking students to real industrial and explain the basic way of working, etc. Also motivated students to involve with different activities according to their interest like self-project, paper presentation, etc. Also have experience with Business Analyst for college website creation.

Method / Technology: Class room, LAB,  
Practical explanation.
